Healthcare education for specific physicians and healthcare workers department: What should you know?

It has taken Dr. Asif Qureshi 21 years of research, from 1999 to 2021, in Chicago, Illinois, United States, to compile these resources.

Why is there a need to provide website links or references to others?

So that others can get educated relevant to specific professions.

So that others know about the research Dr. Asif Qureshi conducted from 1999 to 2021 in Chicago, Illinois, United States.

What are the various findings?

On or before October 22, 2021, there were at least 6000 hospitals in the United States. Not a single specific physician or healthcare executive, nor members of the Senate Health, Education, Labor, and Pensions Committee, had done this type of research and displayed the results through the internet in the way Dr. Asif Qureshi has. Reimbursement and retroactive credits for Dr. Asif Qureshi's 21 years of work are required and justified. The United States is the origin of allopathic medicine.

[Here are further guidelines.](#)

Physician with law-making skills

What are examples of a physician with law-making skills, such as Dr. Asif Qureshi, with proof?

Take a look at this.

<https://qureshiuniversity.com/healthcarelaws.html>

Who from the government is responsible for providing executive grants, remuneration, reimbursement, and income to Dr. Asif Qureshi for providing these resources, research, and guidelines?

The United States Secretary of Health and Human Services, the United States Deputy Secretary of Health and Human Services: What did you understand after reading these facts?

The United States Secretary of Health and Human Services: What are the duties and responsibilities of this job?

The United States Secretary of Health and Human Services: What are the skills and knowledge required for this job?

The United States Senate Committee on Health, Education, Labor, and Pensions, 2021-2022 members: What are your duties and responsibilities?

The United States Senate Committee on Health, Education, Labor, and Pensions, members after 2021-2022: What are the skills and knowledge required for this job?

Who must fulfill these duties and responsibilities after 2021-2022?

Dean of medical education (physician)

What is another name or term for the dean of medical education (physician)?

Principal of an allopathic medical college
A senior official at a college or university

Why must a dean of medical education author guidelines relevant to specific physicians?

Take a look at this.

<http://www.qureshiuniversity.com/physicians.html>

You will yourself find how, before 1999 and after 1999, medical education for specific physicians through the Internet changed.

How has medical education for specific physicians through the Internet changed since 1999, for example:

American Medical Association.

JAMA and similar entities

What needs to be improved on or after October 24, 2021, as circulated by Dr. Asif Qureshi?

1. All authors need to be reminded that questions and answers are required.
2. An electronic PDF documents are required relevant to JAMA and similar entities.
3. From time to time, the documents, guidelines, and curriculums for specific physicians need to be improved with these facts: www.qureshiuniversity.com/physicians.html.
4. Global Medical College Allopathic, founded by Dr. Asif Qureshi.

Program Director

What is a program director?

A program director researches, plans, develops, implements, and circulates one or more of the professional training programs or professional services.

What types of training programs can a program director offer?

Here are various examples.

I have training programs for 611 professions.

This includes training programs for physicians, teachers, lawyers, and engineers.

I have guidelines for 43 departments in the state and outside the state.

What types of physicians can Doctor Asif Qureshi guide?

Doctor Asif Qureshi can guide 19 types of physicians.

Doctor Asif Qureshi can also guide 600 types of other professionals, including teachers, lawyers, engineers, state police officers, and state military officers.

What should every type of physician know?

<http://www.queshiuniversity.com/physician.html>

Healthcare professional regulator for physicians with specific physician skills.

What did you understand from the mentioned issues?

Who is responsible for answering the mentioned questions?

Who is responsible for resolving the mentioned issues?

Medical Practice Act of Illinois and similar entities. 225 ILCS 60/ Medical Practice Act of 1987

What are the issues?

On or after March 1, 2020, the Medical Practice Act of Illinois needs to be reformed. Entities similar to Illinois need to follow similar reforms.

Forms available with professional regulators of Illinois for updating physicians' licenses are not relevant to the current situation.

The failure to answer the relevant questions from professional regulators of Illinois for physicians makes the issues more complicated.

How can this be prevented?

On or after March 1, 2020, new staff are required at professional regulators of Illinois with a focus on physicians' guidelines (available at www.queshiuniversity.com/physicians.html).

On or before March 1, 2020, existing staff at professional regulators of Illinois with a focus on physicians did not know how to write a question-and-answer presentation in English language.

Doctor Asif Qureshi is willing to teach them.

This is in addition to teaching them how to be a competent specific physician.

Who must provide remuneration for Doctor Asif Qureshi's work in providing these guidelines?

Who is receiving a salary for legislative services, administrative services, and professional services in administration without providing similar services provided by Doctor Asif Qureshi?

What must happen next?

Stop their salaries, remuneration, and income on or after March 1, 2020. This is due to the fact that they do not deserve any earned income.

Why is there need to include the founder of Global University online, Dr. Asif Qureshi, in your database?

On or before August 23, 2021, in America, Graduate Medical Education program directors did not display guidelines for existing physicians, attending physicians, medical residents, medical students, and/or similar entities the way Dr. Asif Qureshi has displayed such guidelines at www.queshiuniversity.com/physicians.html. This has taken Dr. Asif Qureshi 21 years of research in Chicago, Illinois, United States.

On August 23, 2021, I applied for position of accreditation administrator of the Accreditation Council for Graduate Medical Education, Suite 2000, 401 North Michigan Avenue, Chicago, Illinois 60611.

At this point, those who are overseeing these issues at the Accreditation Council for Graduate Medical Education, Suite 2000, 401 North Michigan Avenue, Chicago, Illinois 60611, must be reminded about these facts.

Professional Licensing Department
Professional Licensing Issues

Questions you need to answer.

1. What type of specific physician license will you offer to an individual like Dr. Asif Qureshi, who can guide 19 specific types of physicians, as demonstrated at <https://qureshiuniversity.com/physicians.html>?
2. What type of specific professional license at the executive level will you offer Dr. Asif Qureshi, who can guide so many professions at executive levels, including 19 specific physicians, lawyers, teachers, engineers, and administrators, as demonstrated at <https://qureshiuniversity.com/professionsworld.html>?
3. What do you understand by the alternative route to licensure for a person like Dr. Asif Qureshi, who can guide so many professions, including 19 specific types of physicians, lawyers, teachers, engineers, and administrators, as demonstrated at <https://qureshiuniversity.com/professionsworld.html>?

What do you have to do?

Answer the mentioned questions.

Verify the findings at <https://qureshiuniversity.com/professionsworld.html> and www.qureshiuniversity.com/physicians.html, which document the research conducted by Dr. Asif Qureshi over the last 21 years, from 1999 to 2021, in Chicago, Illinois, United States, and forward the relevant professional license document to me relevant to the mentioned questions.
Some of your questions and forms for professional licensing are not relevant to me. First understand my issues.

One of the options is an executive-level job for Dr. Asif Qureshi at:
Illinois Department of Financial and Professional Regulation
100 West Randolph, 9th Floor
Chicago, IL 60601
<https://www.idfpr.com/About/About.asp>

What will my duties and responsibilities be at the executive level?

1. 19 specific types of physician licensing with alternative route options.
2. Educator license. Mandatory research presentation from educators for their licensing.
3. Lawyer license
4. Engineer license
5. Administrator license
6. Many more

What did you understand after reading these facts?

What is your answer to these questions?

How do you plan to resolve these issues?

How soon should I expect a response from you?

License of doctor of medicine

Have there been scandals in America about issuance of professional licenses, including that of a doctor of medicine?

Yes.

What should be the focus of a doctor of medicine?

Abilities to be a doctor of medicine are essential.

This takes many years of desire to learn and desire for public service.

Issuing a license of doctor of medicine nowadays takes just a few minutes.

Do not claim to be a specialist without having minimum abilities required of a doctor. This is how a specialist is interpreted.

A psychiatrist is a medical doctor with additional abilities of a psychiatrist.

A surgeon is a medical doctor with additional abilities of a surgeon.

A doctor who performs medical operations is called a surgeon.

An individual who can do an eight-inch incision and close in three layers is not a surgeon.

A surgeon is basically a doctor of medicine.

Being a doctor of medicine means a human being is able to reach a correct diagnosis and treatment of a human being in various healthcare settings, able to offer Internet human healthcare, public health advice, patient education guidelines, and administrative issues guidelines.

Being a licensed doctor of medicine does not mean the individual has minimum abilities of a doctor of medicine.

Being a board-certified member does not mean the individual has the minimum abilities of a doctor of medicine.

In case you display or circulate your abilities as a doctor of medicine, the system will recognize you.

The system will come forward to offer you a license of doctor of medicine.

In situations where the system maintains silence or does not reply to your issues, You have the right to complaint and contest this exclusion provided you have competence and abilities of a doctor of medicine.

What should various professional boards, certification resources, or licensing resources advise professionals, including doctor of medicine?

Your real-world performance is essential.

You should be able to answer relevant questions in the real world from time to time relevant to your profession.

There should be no complaints.

You should resolve complaints immediately before they become a big scandal.

You should have general abilities.

You should have profession-specific abilities.

You have to prove your performance in the real world.

Go through administrative law of professional licensing.

)
GEORGE BUSH, President,) No. 05 C 1760
Defendant-Appellee.)
) James F. Holderman,
) Chief Judge.

O R D E R

The court, on its own motion, orders attorney Thomas P. Walsh to show cause for his failure to respond to the court's order of July 21, 2006 (incorrectly typed as "June 21, 2006").

Attorney waish shall file his response on or before August 11, 2006.

Counsel is advised that failure to respond may result in monetary or disciplinary sanctions.

Reopen case number 06-2655. This is among the 10 issues elaborated on. Dr. Asif Qureshi, a medical doctor, is facing the deprivation of his rights under the color of law, discrimination, exclusion, and intentional harms. I was given an assignment by Social Security to list my soft skills and hard skills. I have done my part. The same was transferred to the Illinois Department of Human Services. This was and is the Ticket to Work program.

Retroactive relief is due to Dr. Asif Qureshi (www.queshiuniversity.com/physicians.html), who has spent 22 years conducting research in Chicago, Illinois, United States but has faced the deprivation of his rights under the color of law, prejudice, discrimination, and exclusion, including from the American Board of Medical Specialties, 353 North Clark Street, Suite 1400, Chicago IL 60654.

Ten billion dollars in damages must be collected from all identified wrongdoers.

What was happening at the Illinois Department of Human Services on July 11, 2023?

Address: Secretary Illinois Department of Human Services, 401 S. Clinton St., 7th Floor, Chicago, IL 60607
